Report of an Add on course initiated/ offered by the department of Political Science,HBC,Nalhti,Birbhum.W B.

Title of the Course:

Basics of Indian Constitution(BIC)

Introduction:

Add-on courses are short-term training programmes that are designed to supplement the core curriculum of a degree program. These courses are usually offered as certificate or diploma courses, and they provide students with additional skills and knowledge that are

relevant to their field of study.

Course description:

The Constitution of India is the supreme law of India. The document lays down the framework demarcating the fundamental political code, structure, procedures, powers, and duties of government institutions and sets out fundamental rights, directive principles, and the duties of citizens. It imparts constitutional supremacy (not parliamentary supremacy), since it was created by a constituent assembly rather than Parliament) and was adopted by its people with a declaration in its preamble. Parliament cannot override the constitution. It was adopted by the Constituent Assembly of India on 26 November 1949 and became effective on 26 January 1950. The constitution replaced the Government of India Act 1935 as the country's fundamental governing document, and the Dominion of India became the Republic of India. To ensure constitutional autochthony, its framers repealed prior acts of the British parliament in Article 395. India celebrates its constitution day on 26 January as Republic Day.
