COURSE Title: Ecotoxicology & Environmental Biotechnology, Field Visit On Forest, Wildlife Sanctuary and Environmental Lab

DATE: 19/06/2026

PLACE: Bolpur Shantiniketan, Bhirbhum, West Bengal, INDIA

TOTAL STUDENT PARTICIPANTS: 5 (Male: 3 Female: 2)

TOTAL TEACHER PARTICIPANTS: 2

To study Sonajhuri plantation landscape, wetland ecosystem, wildlife sanctuary and to visit Environmental Laboratory. During the field visit we observed top soil erosion, human made artificial structure, rich bird diversity, plastic waste etc. Human activities like tourism are affecting the habitat. Conservation measures and community awareness are needed. Field study helped us to understand forest ecosystem, human impact on the ecosystem and function of ecosystem.

In Ballavpur Wildlife Sanctuary we observed different kinds of migratory and indigenous birds species, medicinal and aromatic plants species.

In this field visit we observed environmental lab to understand about the different instrumental methodology how to assess the different environmental parameters. The senior faculty and scholar of that department demonstrated on the principals and process how to function the different instruments.
