5. Dr. Niladri Das.
6. Shri Jokibur Rahman.
7. G.S., S.U.
8. C.R.S., S.U.

• **Participants' Details:**

1. No of Students-50
2. No of teachers-15

Description of the Drive:

The pursuit of a sustainable environment and a cleaner future is a responsibility of all of us. In line with this vision, a Green and Clean Campus Drive was recently conducted at our college, aiming to instill a sense of environmental stewardship among the student community.

The drive commenced with a brief standing session, where students gathered to delve into the significance of maintaining a green and clean environment within our college campus. Through engaging discussions, the importance of a pristine environment for our collective health and well-being was emphasized, setting the tone for the day's activities.

To translate our discussions into tangible actions, a tree plantation activity was organized as a cornerstone of the drive. Students enthusiastically participated in this hands-on endeavor, symbolizing our commitment to nurturing nature and fostering a verdant campus landscape for generations to come.

In addition to tree planting, the drive aimed to raise awareness about waste segregation and recycling practices. Students were educated on the importance of properly segregating waste and utilizing recycling bins effectively. By embracing these practices, we not only ensure a cleaner campus but also contribute to a sustainable environment, laying the groundwork for a greener future.

- **Outcome:**

The Green and Clean Campus Drive was a resounding success, showcasing the power of collective action in promoting green and clean environment. Through interactive sessions, tree plantation initiatives, and waste management awareness, students were empowered to become agents of positive change in their community. As we continue to nurture our campus environment, let us uphold the values of sustainability and stewardship, striving to create a brighter, greener tomorrow for all.
